### OUR QUALITY POLICY

Our Company is committed to:

- Ensuring the highest level of customer satisfaction by continuously improving the reliability, quality, and effectiveness of our products,
- Conducting activities that promote quality awareness as a shared responsibility and fundamental objective of all employees, from the Board of Directors to interns,
- Adopting a culture of continual improvement by encouraging employee consultation and participation, enhancing their competencies, and ensuring their active involvement in processes,
- Developing and directing our existing technical, technological, and managerial know-how in a manner that strengthens our competitive position and increases our market share within the industry,
- Recognizing human resources as our most valuable asset and providing a safe, healthy, and continuously developing work environment where quality, environmental, and occupational health and safety cultures are embraced,
- Controlling the environmental impacts arising from our activities, ensuring the efficient use of natural resources, increasing energy efficiency, reducing waste, supporting recycling and recovery practices, preventing pollution, and protecting the environment,
- Eliminating hazards, reducing occupational health and safety risks, preventing work-related injuries, occupational diseases, and near-miss incidents, and providing safe and healthy working conditions for all employees,
- Fully complying with applicable legal requirements, other compliance obligations, and ethical values related to quality, environmental management, and occupational health and safety,
- Creating added value for the agricultural sector by developing innovative, efficient, and sustainable products through R&D activities and technological investments,
- Establishing effective communication with our employees, suppliers, customers, and other interested parties to develop long-term, sustainable, and trust-based collaborations,
- Establishing, implementing, maintaining, and continually improving an integrated management system that enhances quality, environmental, and occupational health and safety performance by considering organizational context, risks, and opportunities,
